Social Media Branding

YOUR PROBLEM	MY SOLUTION	Option #
Consultation (we all need help sometimes)		
I have a team that is intimidated by social media.	I can meet with each team member to learn their boundaries on social media.	1 TEXT
I have a team that I love that I don't have time to hand hold with social media posting.	I'm very maternal and adaptive to the needs of my individual branded clients. Social media is social therefore naturally skepticism gravitates toward valid effort but, so does support. Acknowledging support vs. skepticism is a process.	2 TEXT
I have a brand/ I am a brand and I could use another supportive strategic brain towards some memorable content.	Research is what I do and organize for you. It is normal to get trend blind. I'll help you have a monthly goal. Sounds simple but it can be hard to execute when you're busy with life.	3 TEXT
I have a business page that I want to generate leads with.	My favorite! I aim for action in my posts which is different than just numbers[=scrolls]! So we'd create a formula to a video post. I have an editing package.	4 TEXT
I have a team that I want to represent my brand.	We can hold social media team meetings. One image one family can lead to a huge growth for your company.	5 TEXT

Long-form Content...podcasts, Youtube.	Bigger Projects are funnels to your business. However, they do take months of commitment. If you're ready, lets talk.	6 TEXT
Short-form Content...a video on my website.	Visualize, Break Down, Plan, Execute, Edit. We can do it. Unique Content will always set you apart.	7 TEXT
